GOVERNOR COX PROCLAIMS JUNE 5TH LEGAL HOLIDAY

Urges Suspension of all Business on Registration Day in "Sacred Solemn Hour" When "The Manhood of the Country Shall Step Forward in One Solid Rank in Defense of The Ideals To Which This Nation is Consecrated."

COLUMBUS, OHIO, MAY 24. — (ASSOCIATED PRESS DISPATCH)—A PROCLAMATION SETTING ASIDE JUNE 5, REGISTRATION DAY, AS AN OHIO HOLIDAY, WAS ISSUED BY GOVERNOR COX TODAY. HE REQUESTS THAT SCHOOLS AND PLACES OF AMUSEMENT CLOSE AND ALL ACTIVITIES CEASE, SAVE THOSE NECESSARILY REQUIRED TO BE IN OPERATION.

The proclamation follows: "The events which engulf this country in war are of the past. No one who is loyal to the flag, who thinks without prejudice, and who holds reverence for our national honor, questions the righteousness of our cause. Our president made every sacrifice, save our self-respect, to avert war. But it is upon us now, and time for defense has arrived. The President has designated June Fifth, Nineteen Hundred Seventeen, when 'The manhood of the country shall step forward in one solid rank in defense of the ideals to which this nation is consecrated.' Millions of men stand ready to respond. They must be selected carefully and systematically, and this is the object of the day which we shall designate in Ohio as the 'Call to the Colors.' "It probably is the most trying hour the world has ever known, and the policies of government, purified and preserved by those who live now, will determine the civilization under which our children and our children's children shall live in the future. What greater guarantee of their peace and happiness can be given than a Democracy that envelops all nations—a Democracy sanctified by an enduring memory of what was unselfishly given to make it possible. We shall approach the day reverently—reflect upon its meaning, and dedicate our hearts in gratitude to those who come forward for the national defense.

"I, therefore, proclaim the day of June fifth, Nineteen Hundred and Seventeen, as a holiday in our State, requesting that business be suspended—that the schools close; that places of amusement be not opened, and that all activities save the lines of continuous operation, halt in sacred observance of a solemn hour. Communities are requested to assemble the services of organizations that can be useful in making our manifestations suitable and appropriate.

"Registrations will be made at the accustomed voting places. This work is assigned to the deputy supervisors of elections in each county, and full instructions will be issued to them from the Secretary of State. The process of selection for service and medical examination come later, and explicit directions will be given both by the War Department at Washington, and by the State Government.

(Signed) "JAMES M. COX,
"Governor."

BRITISH SHIP IS SENT DOWN

Four Hundred and Thirteen Lives Are Lost.

(Associated Press Cable)

London, May 24.—The British transport Transylvania was torpedoed on May 4, with the loss of 413 persons.

The Transylvania was torpedoed in the Mediterranean. The following official statement was given out today: "The British transport Transylvania, with troops aboard, was torpedoed in the Mediterranean on May 4, resulting in the following losses: twenty-nine officers and 373 of other ranks; also, the ship's captain, Lieutenant S. Brennell and one officer and nine men of the crew."

ANCHOR LINE SHIP

The Transylvania, an Anchor Line steamship of 14,315 tons gross, has been in the service of the British Government since May, 1915, when her sailings were cancelled.

There have been no recent reports of her movements. When she was first taken over by the British Government, she was engaged in transporting troops to Gallipoli.

The Transylvania was built in 1914, especially constructed for passenger traffic between New York and Mediterranean ports. She was 548 feet long and had accommodations for 2,450 passengers.

Striking Down the Coast Italians Launch Second Offensive.

Jap Gunboats to Hunt Submarines and Convoy Transports.

Bulgarian Socialists Demand Restoration of Belgium.

Convocation of General Conference Is Recommended.

By Associated Press Dispatch.

Striking down the coast toward Trieste, the Italians have opened the second phase of their offensive with a sweeping victory.

They broke through the entire Austrian line from Castagnavica to the Adriatic, a front of about five miles, and took more than 9,000 prisoners.

The present offensive was opened by attacks mostly to the north and east of Gorizia.

The sudden switching of the drive this week to the southeast of that town evidently took the Austrians by surprise.

This condition apparently was utilized to its full advantage by General Cadorna, in pushing his troops ahead.

The extent of the aerial co-operation in the attack is indicated by the participation of 130 airplanes in dashes behind the Austrian lines, in which ten tons of bombs were dropped to help break down the enemy resistance.

The count of prisoners perhaps is more impressive than anything else in emphasizing the importance of the Italian victory, a total of nearly 10,000 having been taken in one day in attacks of this character.

QUIET IN FRANCE

Military operations in France are, in order of their periodic state, of comparative quietude.

The French front is the liveliest, the Germans reacting there after the recent French successes.

A counter attack on the Vaucluse Plateau last night was repulsed immediately with heavy losses to the Germans.

JAPS ARRIVE

(Associated Press Cable)

London, May 24.—The arrival of a "considerable number of light Japanese naval craft in the Mediterranean to co-operate with the naval forces of the Allies," was announced in the House of Commons today by Lord Robert Cecil, Minister of Blockade.

If the experiment is satisfactory, it is to be extended.

BULGARS AROUSED

(Associated Press Cable)

Stockholm, via London, May 24.—The restoration of Belgium, Serbia,

Montenegro and Roumania was demanded by the Bulgarian Socialist delegates in a conference with the Dutch and Scandinavian Committee.

They declared themselves in favor of a national reunion of Bulgarians, as a step to give permanent tranquility to the Balkans.

The Bulgarian delegates further declared that the right to settle their own affairs should be extended to all peoples, such as the Armenians and Poles.

They expressed the hope that the problem of Alsace-Lorraine be settled along these lines.

The convocation of a general Socialist conference also was advocated.

NEED MONTH TO COMPLETE WAR TAX BILL

By Associated Press Dispatch.

Washington, May 24.—Another month probably will be required for Congress to complete the war tax bill, although the House passed it last night.

It was indicated today that the Senate will make so many changes in the measure as to result almost in a re-drafting, particularly of sections relating to taxes on excess profits, incomes and manufacturers, and the increased second class postal rates.

Formal receipt of the bill in the Senate and its reference to the Finance Committee were postponed a day before the body adjourned, out of respect to the death of Senator Lane of Oregon.

BRAZIL NOW PRACTICALLY IN THE WAR

(Associated Press Cable.)

Rio Janeiro, Brazil, May 24.—Foreign Minister Nilo Pecanha declared in the Council of Ministers, according to the newspapers, that it was not necessary for Brazil to declare war on Germany, because she had been virtually forced into a state of war by circumstances.

Senhor Pecanha said that in regard to the co-operation between Brazil and the United States, the Government should devote its entire attention to military and naval organization, especially with respect to collaborating with the United States in the policing of the South Atlantic, and should prepare for any eventuality.

After the meeting of the Council Senhor Pecanha was asked as to the possibility of Brazil declaring war on Germany. The Minister replied:

"Brazil declares war on nobody. She defends herself. It is Germany which declares war on all neutrals."

It was during the French Campaign in Madagascar that Marshal Joffre laid the foundations of his military reputation.

VITAL STATISTICS IN THE CITY AND FAYETTE COUNTY

O. L. Brodrick, Chief Statistician Here Today Investigating Alleged Infraction of Law, Gives Interesting Statistics for City and County.

Mr. O. L. Brodrick, Chief Statistician of the State Bureau of Vital Statistics was in the city on business connected with his department, Thursday, and from him were obtained figures showing the births and deaths in the city and county since 1909.

The figures on deaths are reliable, but, according to Mr. Brodrick the figures on the births are not all correct because many physicians have neglected this very important part of the vital statistics, although most of them are now reporting all births. His presence in the county was for the purpose of investigating alleged negligence of one physician in failure to register births.

Mr. Brodrick called attention to the enormous infant mortality rate in the city and county and is of the belief that this should have more attention than it has received, as the infant mortality rate in this city and county is said to be in excess of any other community in the state.

In Washington the number of births reported each year, beginning in 1909, is given as: 163, 150, 119, 53, 93, 108 and 106. Number of males each year beginning 1909—85, 79, 63, 21, 50, 66, 54. Females—78, 71, 56, 32, 43, 42, 52.

The number of death under one year during the years beginning 1909—18, 9, 22, 14, 17, 24, 17. Infant mortality rate, beginning 1909—11.0, 6.0, 18.5, 26.4, 18.4, 22.2, 16.0.

In Fayette county the number of births report are, beginning in 1909—499, 481, 357, 158, 284, 362, 376. Male—267, 240, 204, 72, 151, 190, 202. Female—232, 241, 153, 86, 133, 172, 174.

Deaths under one year, beginning 1909—35, 44, 46, 40, 52, 49, 39. In-

fant mortality rate beginning 1909—7.0, 9.1, 12.9, 26.3, 18.3, 13.5, 10.4.

Following are the number of deaths in Fayette county, from some of the most important diseases, beginning 1909 and including last year:

Typhoid 9, 10, 2, 5, 2, 4, 1, 6.
Measles 1, 3, 1, 1, 4, 5, 1, 0.
Scarlet Fever 1, 2, 0, 1, 1, 0, 0, 2.
Whooping Cough 0, 9, 1, 5, 19, 3, 1.
Diphtheria and Croup 0, 3, 3, 6, 1, 1, 1, 0.

Influenza 5, 7, 16, 3, 7, 6, 7, 10.
Tuberculosis 31, 31, 24, 39, 20, 32, 29, 26.

Cancer 15, 13, 16, 12, 18, 17, 15, 21.
Pneumonia 15, 13, 15, 20, 16, 20, 27, 19.

It will be seen by the above figures that tuberculosis is the most deadly malady in the county with pneumonia and cancer close seconds.

HILLSBORO ROUTE IS MERELY A LOOP IN S. S. HIGHWAY

The Sherman-Sheridan Highway has been definitely established through this city and county, according to announcement by Tom S. Morgan, field secretary of the Sherman-Sheridan Highway Association, who also states that his activities in Highland county are for the purpose of building a loop through that community.

In a letter to The Herald Mr. Morgan says in part:

"I hope you will make it very clear to citizens in your county that the road is established and that the line through Hillsboro is merely a loop."

The work of forming an association in Highland county gave rise to the belief that efforts were under way to change the proposed route of the road and it will be good news to Fayette countians that the road is definitely established through this county, and will do much toward increasing interest and membership in the Association, so that Fayette will do what is necessary in this connection.

COMMENCEMENT AT JEFFERSONVILLE WEDNESDAY NIGHT

Thirteen Graduates Complete Work and Are Given Diplomas After Interesting Class Exercises Last Night—Unusual Talent Displayed in Rendition of Play.

The Jeffersonville High School may well congratulate both its excellent management and its ambitious graduates in the twenty-third annual commencement, which passed off amid the enthusiastic plaudits of a highly gratified audience Wednesday night in Jefferson Hall.

It was pronounced one of the very best commencements in the history of the school and the verdict was unanimous.

The thirteen graduates put on a clever and entertaining class play, a modernized presentation of "The Merchant of Venice Up-to-date," under the splendid direction of Superintendent R. S. Parsons.

The idea was particularly happy, giving each graduate an opportunity and delighting the audience with the talent displayed in the presentation of the play.

The parts were well assigned and every one so well taken that it assured success.

Corine Baker was a stunning Duke of Venice; Amos Zimmerman fine as "The Merchant of Venice," and his two friends, Bassanio and Gratiano, capably played by Dell Creamer and Gladys Reid. The scene between Bassanio and Abbie S. Thredwell, a teacher, acted by Juanita Creamer, brought down the house.

Sue Fent did some very clever impersonation work as Shylock and Vernie Schert as Launcelot Gobbo, Shylock's servant, and the clown of the play, was almost professional in his entertaining role.

Mildred Eads was a charming Portia and Lela Combs as "Jessica," Shylock's niece, both pretty and well suited to the part, as was also Pauline Cumrine, the winsome "Narissa."

David Williams was excellent as "Tubal." Double roles were cleverly played by Juanita Creamer as the teacher and a Policeman, Bessie Bayless, Portia's maid and the Professor. Nellie Wentz as Mrs. Gobbo and Antonio's mother.

The play was well staged, presenting a wood scene, with branches of spruce and the class colors, green and purple, effectively used. The costumes, secured from Columbus, were correctly Shakespearean, and they made doubly amusing the up to date take-offs.

Following the play Superintendent R. S. Parsons, with a brief but inspiring little address presented the diplomas.

The class had discarded the costumes of the play and the girls were all wearing gowns of white organdie, made by themselves, with bunting sashes of red and blue.

The closing tableau was very effective, with the American flag floating over the class in the center and waving on either side the flags of England and France.

County Superintendent Nelson and the high school corps of teachers were seated on the stage. Price's orchestra, of Greenfield, furnished splendid music.

A noteworthy feature of the exercises was the presentation by the class to the high school of a fine picture, Rosa Bonheur's "Lioness and Cubs." Del Creamer, class president, made the presentation and Superintendent Parsons accepted.

The class has adopted as a mascot a friendly little poodle, which has had the habit of attending rehearsals and to whom they attribute the success which has crowned the entire commencement season.

Rev. B. F. McKinnon pronounced the benediction.

NEW MOTOR TRUCK ADDED TO EQUIPMENT

S. A. Pyley & Son have purchased of The Armleder Company, Cincinnati, a new two and one-half ton motor truck to be used in hauling freight from the railroads to merchants, and expect to be in position to offer much quicker service.

The new truck is the third owned by Messrs. Pyley, one of the trucks being the largest moving van in this part of Ohio, and very much in demand for moving purposes.

A short time ago a Mr. Bell, traveling man who "makes" this city frequently, stated that a short time ago he saw the Pyley moving van in Oxford. The following day Mr. Bell, while on the Ohio Electric line between London and Columbus beheld

the Pyley van. Two days later he was astonished to see the van in Georgetown. When he arrived in this city Mr. Bell made inquiry as to how many vans the Pyleys had in service, and was greatly surprised to learn that only one of the monster trucks was used for this purpose.

PLEDGES MADE BY NATIONAL LEAGUE WOMAN'S SERVICE

By Associated Press Dispatch.

New York, May 24.—To stimulate further the government plan of systematizing and co-ordinating the work of women in war, the National League for Woman's Service will place its organization at the disposal of the Woman's Committee of the National Council of Defense, of which Dr. Anna Howard Shaw is chairman. The pledge of complete co-operation to the committee has been made through Miss Maude Wetmore, national chairman of the League, who was appointed a member of the committee.

With the branches in forty states the League has been able to bring over two million women within the scope of the work and more than two hundred co-operating women's organizations including the D. A. R., the Council of Jewish Women, the Colonial Dames, the Collegiate Alumnae, and the National Civic Federation and the League of Catholic Women.

The League already has been in the field four months, actively registering women everywhere. "One of the planks in the platform of the League is a demand for a Woman Power Board for all time, with government sanction, to co-ordinate and correlate the activities of women paid or unpaid."

The activities of the League are now organized into eight general departments through which women have been trained are being trained for the particular kind of war service which they have chosen. The departments are agriculture, home economics, social and welfare, motor driving, general service, wireless, canteens and commissariat. Under the supervision of the Department of Labor, a bureau of registration and information concerning woman's work also has been established at Washington by the League.

The League is now established in its new headquarters at No. 257 Madison Avenue, New York City. Ohio State quarters, 714 Gwynne Bldg., Cincinnati.

Appreciation

To be able to properly express appreciation is a great thing, to be really appreciative is much greater. Too many people are inclined to minimize their joys and magnify their sorrows and too many people are inclined to long for pleasures which are impossible of attainment and overlook, entirely, the pleasures they possess.

We should be appreciative of the efforts of other people in our behalf and we should be appreciative of the blessings which the Creator has given us.

If it is ill mannered and ungracious not to feel and express our appreciation of the labors of others, especially when those labors result in benefit or pleasure to us, how much more culpable are we if we fail in our appreciation of the benefits which the Creator has showered upon us.

Sometimes when we see the discontent and the lack of appreciation of many people we are almost forced to conclude that blessings are not conducive to happiness and then when we see the joyful response in appreciation which one small blessing brings to those whose lot in life is a hard one we are forced to change that belief.

Company M

Enlistment in Company M offers particularly attractive features to the young men who purpose to enter the service of the nation.

In the first place enlistment in the local company is voluntary and therefore exempts the members from conscription or draft. The federalized militia of which the local company is a part will probably enter the service first of all, save possibly, a part of that regular army which is now existent and in service, the enlistment is only for the duration of the war, while enlistment in the regular army either voluntary or by conscription, is the same.

There is then, too, the community feature which is a big item for favorable consideration in connection with foreign service. When the company is recruited to war strength it will number one hundred and fifty and each member of the company will thus have one hundred and fifty chances to hear from the folks at home to every one which the recruit in the regulars has. Every member of the company will have his home ties in the same community—there will be friends and company and that means much to the soldiers in service.

Not only is the local company in need of officers but the whole federalized militia organization offers the opportunity of advancement to official position.

We are inclined to the opinion that the young men who desire to enter the service are overlooking a splendid opportunity right here at home, when they go away to enter the service among strangers.

It is difficult and perhaps improper for the civilian to advise too strongly much less to dictate to the men who patriotically take up arms in the nation's defense, and it is not the intention to do anything else than suggest the possibilities and probabilities which the local company offers to the patriotic young men.

Company M and the federalized militia has done valiant service, the organization ranks high in public esteem. It is not only a branch of the new federal army but it is the most efficient and most available right now aside from the old regular army that the nation has. The federalized militia has a bright future and an immediate future in the service as well as a splendid record behind it.

Buy a Liberty Bond

The treasury department officials of the government acting in conjunction with the banks of the country have completed and put in operation a definite plan for the disposal of the Liberty Loan Bonds.

The agency through which the nation transmits the Liberty Bonds to the people are numerous in every community, the manner and terms of payment for a bond are so simple and so generous that any one, even in the most humble circumstance can "buy a bond" with as little trouble as he could purchase a loaf of bread or a nickel's worth of salt.

Liberty Bonds may be obtained in denominations as low as fifty dollars and can be paid for on the partial payment plan.

The security is splendid, the cause is glorious, the income generous and above all the patriotic duty is plain.

Everyone should buy at least one of these Liberty Bonds. Those who can't go and fight, who can't raise food stuffs can help "tote" the financial burden and that's one of the big services. This is the people's cause, the people's war and there is a chance for every one to assist in the glorious work upon which the nation has embarked.

Every business man should buy a bond and display it in his place of business along with the flag of our country.

Poetry For Today

BUY A BOND!

Be still for a minute, O war's alarms!
And listen, you Yankee bands!
This isn't a clarion call to arms;
It's wholly a call to hands.
America's flock,
Your coffers unlock!
Come! open the golden dam!
Ho! get out the sock, the good old sock,
And buy from Uncle Sam!

You lank New Englander, look you back
To the days of the minute men,
Who tilled the land for your golden stack,
You prosperous citizen!
You patriot stock
At money could mock;
Are you, their son, but a sham?

You city millions, whose family trees
Lead up to one forbear—Work,
Your money's good as the best of these,
O carter, or cook, or clerk!
You slave of the dock,
Dig down in your frock
And don't be tight as a clam!
Just get out the sock, the long-kept sock,
And buy from your Uncle Sam.

O butcher, baker and boss at bar!
O farmer and fiddle folk!
There's one fine test of the man you are:
Will you for the Flag go broke?
Columbia's knock
Should stir like a shock,
So answer, "Your son I am!"
And grab up your sock, your golden sock,
And buy from your Uncle Sam!

COMES 8,650 MILES TO STUDY IN OHIO

By Associated Press Dispatch.

Columbus, O., May 24.—Gonzales D. Renart, 17 years old, has come all the way from Buenos Ayres, South America, a distance of 8,651 miles, to study civil engineering in Ohio State University because he can complete the course in the "States" two years sooner than he could in his native country.

His decision to attend the Ohio school largely was due to influence of two uncles, both graduates of Ohio State. Juan Masjoan, 1906, is now a consulting engineer in Buenos Ayres. V. Masjoan is chief of the naval bureau of the Argentine republic.

Renart expects to enter his government's employ after he finishes the four year term. He will spend the summer studying English. He speaks Spanish, French and Italian.

WOMEN RESPOND TO CALL TO ARMS

By Associated Press Dispatch.

Cleveland, O., May 24.—Cleveland women have responded to a "call to arms" issued by the railroads and will help the carriers to keep trains moving by taking the places of as many unskilled railroad workmen as are called for military service. The skilled workers—engineers, firemen, conductors, etc.—will be exempt from military service but from the ranks of the unskilled men many are expected to be selected.

Fifty women already are working in the Erie railroad shops here as hold threads, lathe operators, engine wipers and storeroom keepers. They took the places of workmen who have joined various branches of the army and navy. They are doing the same work the men did and are getting the same rate of wages—\$2.20 and up.

2 Drops, and the Corn is a "Goner!"

When you've got to walk on the sides of your shoe to get away from those awful corn-pains, there's only one common-sense thing to do.

Use "Gets-It" Your Corns Won't Swell in Water. Besides, They'll Shrive! Loosen and Peel Off!

Put 2 or 3 Drops of "Gets-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrivel from that instant—then it loosens and falls right off. There's no other corn-remover in the world that acts like "Gets-It." No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of salves that irritate, bandages that make a handle of your toe, plasters that half-do the work, knives and scissors that draw blood. Use "Gets-It"—no more digging or cutting. "Gets-It" is sold everywhere. See a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Washington C. H., and recommended as the world's best corn remedy by Brown's Drug Store and Blackmer & Tanquary's Drug

CALLS THEDA BARA THE WORLD'S GREATEST ACTRESS

J. Gordon Edwards, of the William Fox forces, who directed the world's greatest screen actress, Theda Bara in "The Tiger Woman," a super de Luxe William Fox production, has unqualifiedly stated that she is the most versatile actress on the American stage today. Mr. Edwards has been a leading dramatic stage director for many years, and has had under his management the foremost stars of the speaking stage.

"Every character she portrays is entirely different," said Mr. Edwards. "Miss Bara actually lives the part for the time being. I very rarely tell her what to do, once she has read the manuscript of a new play. She intuitively grasps the dramatic situations, and becomes transformed into a different being."

"I have no hesitancy in saying, and I speak unqualifiedly, that Miss Bara has developed into one of the foremost artists on the dramatic and silent stage, and that she will go down to posterity as the greatest actress of her time."

Always use the best; that's Red Cross Ball Blue. All leading grocers sell it. 5 cents.

MILITARY TRAINING LESSON NUMBER 3 FOR THE CIVILIAN

Being at a halt, the commands are:
Fall out; Rest; At Ease; and Parade Rest.

At the command Fall out, the men may leave the ranks, but are required to remain in the immediate vicinity. They resume their former places at attention, at the command Fall In. At the command Rest each man keeps one foot in place, but is not required to preserve silence or immobility. At the command, At Ease each man keeps one foot in place and is required to preserve silence but not immobility.

Parade Rest.
Carry the right foot 6 inches straight to the rear, left knee slightly bent; clasp the hands, without constraint, in front of the center of the body, fingers joined, left hand uppermost, left thumb clasped by the thumb and forefinger of the right hand; preserve silence and steadiness of position.

At the command Attention the men take the position of a soldier.

Eyes Right or Left.
At the command Right, turn the head to the right oblique, eyes fixed on the line of eyes of the men in, or supposed to be in, the same rank. At the command Front turn the head and eyes to the front.

To the Flank, Right or Left.
Raise slightly the left heel and right toe; face to the right turning on the right heel assisted by a slight pressure on the ball of the left foot; place the left foot by the side of the right. The left face executed on the left heel in a corresponding manner.

Right (Left) Face.
Is executed similarly, facing 45 degrees. To face in marching and advance, turn on the ball of either foot and step off with the other foot in the new line of direction.

To face in marching without gaining ground in the new direction, turn on the ball of either foot and mark time.

First Aid in the Care of the Feet.
The feet should be kept clean and nails cut close and square. An excellent preventative against sore feet is to wash them every night in hot water (preferably salt) and then dry them thoroughly.
Rubbing the feet with hard soap.

greece or oil of any kind before starting on a march is also good.

Sore or blistered feet should be rubbed with tallow from a lighted candle and a little alcohol and the socks put on at once.

Blisters should be perforated and the water let out, but the skin must not be removed.

A little alum in warm water is excellent for tender feet. Two small squares of zinc oxide plaster, one on top of the other, will prevent the skin of an open blister being pulled off.

Under no circumstances should a man start out on a march with a new pair of shoes.

SUMMARY OF CORN AND WHEAT REGION

Washington, D. C., May 23.—The generous rains and much warmer weather that have prevailed over most of the corn belt were decidedly favorable and rapid progress was made in planting, and germination was good except in the northeast where it was too cool. Corn is growing well in the southwest but it is most too dry in the southeast. Winter wheat has improved but is heading low in the south though generally well-filled, particularly in Texas, Oklahoma and in eastern Kansas. The seeding of spring wheat and other grains is nearly completed and the germination and growth are satisfactory. Weather has been favorable for potatoes, truck crops, meadows and pastures in central districts and ranges have improved in the west. Alfalfa has made excellent progress and fruits are generally promising.

Columbus, O., May 23.—In Ohio, week ending May 22.

Except that the nights were a little cool in the most northern counties, weather conditions were most excellent during the week for planting, germination, growth and farm work. The planting of corn, potatoes and gardens was both active and general and is now well advanced, except where locally delayed on account of cold ground. Reports indicate a considerable increase in the acreage planted or to be planted in corn and potatoes. The outlook for the wheat crop has improved in many sections. Oats and grass are making rapid growth. Large crops of apples, pears, plums, cherries and strawberries are indicated. Showers at the close of the week were generally beneficial though locally insufficient.
